

Orton Gillingham: A Multisensory Structured Language Approach to Teaching Literacy Skills to Children with Learning Disabilities

On October 16th -19th 2013 at Flora Creek Hotel, Dubai - UAE

**Recognized and Accredited curriculum
by the Canadian OG Academy**

A 4 Day Training Course - Level -1

Orton-Gillingham (OG) is the recognized intervention approach in North America for students with dyslexia. Orton-Gillingham is a sequential, cumulative, systematic, cognitive approach to teaching literacy to students who struggle with language. Initially developed for one to one therapeutic tutorials, OG is also used effectively in small groups and in classroom settings. Lessons are individualized and prescriptive to the student's level which requires the teacher to be highly trained and knowledgeable with a thorough understanding of concepts relating to the deep and broad structure of language.

Level 1 training, also called Foundations of Multisensory Structured Language (MSL), is a fully recognized and accredited curriculum by the Canadian OG Academy. Satisfactory completion of this introductory course is a prerequisite for further clinical training in the approach. **Completion of level 4 training is required for application to a professional accreditation academy.**
